

IFR Operation – Runway 25R

Please note the following significant deviation from NfL I 328/01 (German regulation for Obstacle Clearance):

1. Internal airport road running partly at a distance of 125 m to the runway centreline
2. Corner of private house at a distance of 105 m to the runway centreline
3. Drainage ditch at a distance of 90 m from runway centreline
4. Main road B16 with alley at a distance of 140 m from runway centreline
5. Energy absorber of fighter barriers at a distance of 37 m from runway centreline (Deflexion rollers at 25 m from runway centreline)
